462 675 mhz is not now, **nor should it be**, exclusively for "emergencies and travelers assistance" only. Users need to be able to continue their normal personal and family activities on this frequency. Without this use, most repeater owners could not afford to keep their repeater on the air. Therefore there would be no one to handle the emergencies or traveler assistance calls.

Users should be **required** to have **permission** to use another persons' repeater.

Thank you for your consideration.

Sincerely,

*Dein Beck*

WT Docket 98-20

REQUEST FOR STAY

Alan S. Wiel  
120 Stanyan Blvd.  
SAN FRANCISCO, CA. 94118-4220

Feb. 7, 1999

I support the Partition for Stay filed by THE PERSONAL  
RADIO STEERING GROUP, INC., P.O. Box 2851, Ann Arbor, Mich.,  
48106, dated January 13, 1999.

It appears that there are numerous errors in the various  
FCC filings relating to this docket that require the STAY  
to be granted so that these errors can be corrected and  
published to the required user community allowing the proper  
time for comments.

I

**request** that you STAY implementation of this docket.
